

Dan's Cell lines

Name: SH-SY5Y cells

Description: Generic SH-SY5Y cells.

Name: S2 cells

Description: SH-SY5Y cells stably transfected with plasmid pGL2-5A3 expressing ATXN2-luc.

Selection media: Hygromycin (200ug/ml)

Name: SH-SY5Y ATXN2-lacop

Description: SH-SY5Y cells expressing a fusion of ATXN2 exon1 fragment to the lac repressor and co-expressing lac-operator-luciferase.

Selection media: Hygromycin (200ug/ml), G418 (200ug/ml)

Name: HEK293 CMV-luc

Description: HEK-293 cells expressing CMV-luciferase.

Selection media: Hygromycin (200ug/ml)

Name: SH-SY5Y CMV-luc

Description: SH-SY5Y cells expressing CMV-luciferase.

Selection media: Hygromycin (200ug/ml)
